

a greener  
**goodkey**  
waste reduction and recycling

A Greener Goodkey waste reduction and recycling program is committed to environmental conservation and not only to protect the health and well being of our employees but also the communities in which we live and work. This endeavor is a commitment to constantly seek out new green products and implement responsible environmental solutions.

We are incorporating sustainable business practices in all areas of our business. We will continue to work with our suppliers to explore new ways of delivering sustainable and responsible solutions through the development and availability of more eco-friendly, cost effective alternatives.
